About me

I am a 21-year-old third-year Information Technology student at Pamantasan ng Lungsod ng Valenzuela with a great interest in web programming, and UI/UX design. My adventure began with the fundamentals of HTML, CSS, Java, PHP, MySQL, and visual design in figma. I take satisfaction in providing digital solutions that are both functional and visually appealing.

I'm always learning and growing to keep up with industry standards, eager to put my abilities to use in a real-world setting. I flourish both alone and collaboratively, and I am well-known for my versatility, attention to detail, and dedication to quality.

Educational Background

College	2022-Present	Jr/Senior High School	2022-2016
Pamatansan ng Lungsod ng Valenzuela		Valenzuela National High School	
Currently 3 rd year pursuing Bachelors of Science in Information Technolog.		Graduated with honors on grade 10.	
		Graduated in ABM(Accountancy, Business, and Management).	

Skills

Technical Skills

✔ HTML ✔ JAVA ✔ PHP
✔ CSS ✔ MySQL ✔ Figma

Interpersonal Skills

✔ Teamwork ✔ Empathy
✔ Adaptivity ✔ Time Management

Academic Projects

Edopt
UI/UX Designer

2022

An educational search platform designed to help users find information quickly and easily—similar to how Google works. As part of the UI/UX team, I contributed to creating a user-friendly and visually appealing interface to enhance the overall user experience.

FrappFizza
Sub Developer

2023

A point-of-sale (POS) system developed for a milk tea and pizza business, designed to streamline order processing, sales tracking, and inventory management. As one of the developers, I worked on building core system features to ensure efficient and user-friendly operations for the staff and management.

TMS
Main Developer

2024

A software solution designed to manage teacher records, including profiles, schedules, and performance data. I developed this system to help streamline administrative tasks, improve data organization, and support efficient school management.

Jack n Poy Adventures
Main Developer

2024

A simple Rock-Paper-Scissors with a twist game developed for fun and practice in game logic and user interaction. I created this project to improve my programming skills by implementing basic game mechanics, user interface design, and decision-based outcomes.

DJCubes Website
Frontend Developer

2024

A modern website developed for a brand/business, focused on providing an engaging online presence. As one of the front-end developers, I contributed to designing and coding the user interface to ensure a responsive, visually appealing, and user-friendly experience across devices.

Canutech
Frontend/Backend Developer

2025

a web-based application designed to monitor and manage inventory for construction-related businesses with forecasting capability. As one of the front-end and back-end developers, I worked on building the system's core features, including product tracking, stock management, and user interfaces, to ensure a smooth and efficient user experience.

Attended Seminars

- **“EnGamed: Game Development - Introduction to Game Engines”** - ITLympics,, April 2024
- **“Fortifying the Future: Navigating the Landscape of Cybersecurity Essentials”** - ITLympics,, April 2024
- **“IT Developer Life Hacks: Working SMART as a Computer Programmer”** - ITLympics,, April 2024
- **“Unlocking Innovation: Navigating Digital Transformation in Today’s Landscape”** - ITLympics, April 2024
